

COVID-19 has changed the reality for managed services providers (MSPs) long-term. The work-from-home transition and focus on cost cutting have only heightened the need for you to assess your security portfolio and ensure security is one of your differentiators now.

MSPs are needed more than ever as cybercriminals double down to exploit newfound security gaps caused by the pandemic. We're here to help you make that a reality despite these hard times. That's why we created the **MSP+ Foundation Pack**—a fully-managed advanced security bundle that's affordable for any MSP. Packed with dark web monitoring, endpoint protection, 24/7 SOC support, and training, you'll be equipped to quickly begin and accelerate a strong security offering without significant overhead.

The MSP+ Foundation Pack Will Empower You To:

Have effective conversations about closing immediate gaps now, while setting the stage for later

Operationalize a new standard of security controls fast without disrupting your team

Feel confident you have greater oversight of the endpoints you manage, without all the noise

Implement a long-term sales and marketing strategy to make cybersecurity a core part of your offering

\$600/Month for 6 Months For Up to 400 Endpoints

What's Included:

Dark Web Scanning & Monitoring with tangible client-facing reports

Unlimited NIST CSF risk assessments with ConnectWise Identify®

Enterprise-class EDR supported by 24/7 SOC

Priority access to ConnectWise Certify™ security certification for 2 resources

Try-before-you buy full access to Continuum Fortify®, a ConnectWise Solution

A copy of our proven MSP Security Go-To-Market Playbook

Valued at over \$16,000 – that's 75% off list price!

The MSP+ Foundation Pack Is Powered by Continuum Fortify

Continuum Fortify enables MSPs to deliver end-to-end security services without building and maintaining in-house operations. With Continuum Fortify you can design and implement custom security solutions at every client site, with coverage of advanced alerting, SOC and SIEM services.

Continuum Fortify for Assessment

Continuum Fortify for Assessment is a foundational solution that enables MSPs to continuously scan and diagnose SMB environments, providing the proper data and reports to identify security gaps. You'll be equipped with:

- ✓ Risk report to drive end client conversations
- ✓ Risk information related to stolen user credentials
- ✓ Point in time technical review of use and machine risk
- ✓ Unlimited dark web scans which are perfect proof points in the sales process
- ✓ Access to Continuum Fortify suite to protect your MSP or use as proof of concept with clients

Continuum Fortify for Endpoint

Continuum Fortify for Endpoint is the most complete and sophisticated security for endpoints, with 24 /7 SOC monitoring and remediation services to stop active threats and minimize harm. You'll benefit from:

- ✓ Enterprise class EDR for machines, regardless of online or offline
- ✓ AI and machine speed behavioral detection
- ✓ 98%+ efficacy rate against ransomware, zero day, and file-less attacks
- ✓ Office 365® Risk Watch to defend against BEC attacks
- ✓ SOC level oversight and response without the cost

ConnectWise Certify Cybersecurity Training

In this full-day training you will learn the foundations of cybersecurity, including industry frameworks and standards, risk assessment best practices, and navigating the ecosystem of security products. With role-based tracks for owners, sales professionals, and engineers, you'll leave with actionable steps to protect your own practice, provide cybersecurity services to your clients, and drive security sales growth. ConnectWise Identify

ConnectWise Identify is a cybersecurity risk assessment tool that helps you identify any customer's critical risks against the NIST Cybersecurity Framework. Whether you want to understand risk in a pre-sales conversation, help existing customers strengthen their security posture, or do a deep dive after an event, ConnectWise Identify helps you turn risks insights into actionable plans that drive revenue.

Limited to 400 endpoints. After initial 6 months all Continuum Fortify for Assessment and Continuum Fortify for Endpoint pricing will be billed at list price without a new contract. SaaS or subscription only. Valid on new licenses only. Cannot be combined with any other offer or promotion. Cannot be used on systems which have been protected by Continuum Fortify for Endpoint Security in the past thirty (30) days. Subject to participant's agreement to any applicable Continuum and ConnectWise terms and conditions. This promotion may be amended, supplemented, discontinued or terminated in Continuum or ConnectWise's sole and absolute discretion at any time without notice. For qualified customers. Contact us for more information. Additional terms and conditions may apply.
