As an Industry leader, we've put time and money behind our commitment to the best practices in cybersecurity and future growth. Sending me to IT Nation Secure this June 6-8 will help us make the most of that investment. The conference is happening in Orlando, FL and will be two days of understanding how to: be prepared for a breech, be informed on the latest threats, operationalize your toolset and how to sell your value successfully.

This cybersecurity conference brings together industry leaders and professionals from all over who can help me understand the industry better and make connections to grow our business faster. With the thought leadership and networking opportunities, we'll see immediate ROI. I'll also be able to focus on ways to impact:

I'll also be face-to-face with top industry vendors in the Solutions Pavilion who could offer useful integrations with ConnectWise. I'll be on the lookout for new ways to drive productivity.
