access and use the Licensed Material, and to sublicense the foregoing rights to End-Clients, each in accordance with the applicable restrictions and conditions contained in this Agreement. MSP right to exercise the foregoing rights in and to the Licensed Material shall be for the sole purpose of MSP's provision of data back-up and protection services to its End-Client customers. MSP will ensure that all its End-Client customers have agreed to abide by the terms of this Agreement, including the confidentiality provisions contained herein and MSP is liable for any breach of this Agreement by such End-Clients. Upon expiration of the Term or termination of this Agreement or the applicable Purchase Order Form pursuant to which MSP subscribes to Continuum SaaS Backup, any and all rights and licenses granted under this Agreement by Continuum shall automatically terminate.

**2.2 License Usage and Restrictions.** MSP acknowledges and agrees that, as between MSP and Continuum, Continuum owns and shall continue to own all right, title, and interest in and to the Licensed Material, including associated intellectual property rights under copyright, trade secret, patent, or trademark laws. This Agreement does not grant MSP any ownership interest in or to the Licensed Material, but only a limited right and license to use the Licensed Material in accordance with the terms of this Agreement and each applicable Purchase Order Form. MSP further acknowledges and agrees that the license granted hereunder shall expire automatically upon expiration or termination of the Term and the restrictions applicable to MSP's installation and use of Continuum SaaS Backup will vary according to the type of license to the Continuum Offering purchased by MSP. MSP hereby agrees to the following license restrictions and conditions applicable to Continuum SaaS Backup set forth in the Purchase Order Forms delivered by MSP under this Agreement:

Continuum may, at its discretion, apply automatic message monitoring, filtering, and deny performance of activities that do not comply with these Terms.

2.2.2 MSP shall ensure that its End-Clients at all times comply with Continuum's third party hosting providers' applicable policies for acceptable use or similar terms for such End Clients. Continuum shall not in any way be responsible for any consequences, e.g. disruption of services, of any failure by MSP to adhere to such policies etc.

2.2.3 If MSP or any of MSP's End-Clients use Continuum SaaS Backup in violation of these Additional Terms or any of Continuum's third party hosting providers' applicable policies for

acceptable use, Continuum will notify MSP of such violation. If MSP does not notify the applicable End-Client of the violation or if MSP has notified the End-Client and the End-Client has not cured the violation, in each case, within five (5) days after notice from Continuum, Continuum shall be, in its reasonable discretion, entitled to terminate MSP's subscription and access to Continuum SaaS Backup, without further notice.

### **Section 3. International Licenses; Content Storage.**

**3.1 International Access.** Continuum SaaS Backup is provided in several regions; currently EU, USA and Australia. New regions may be added at any time but existing regions will not be removed without negotiating an exit from that region with the individual customers in the region. Content transferred to Continuum SaaS Backup will be stored and processed exclusively in the region as chosen by MSP. MSP appoints Continuum to transfer Content to the chosen region and to store and process Content in the chosen region. Keepit may remotely manage data storage and processing facilities in the regions from non-regional offices. Organisational measures are in place to ensure that Customer Data is never transferred from its region.

3.1.1 Continuum or its third party hosts may, as part of an ongoing support issue with MSP or EndClients, request access to the Content from the MSP or End-Client. It is the responsibility of MSP to determine if such access can be granted under applicable laws and regulations, for example under GDPR Article 49, before granting such access. It is the responsibility of MSP to choose a region suitable for the storage of Content. For example, if Content may not be exported from the EU, then MSP must choose the EU region for Continuum SaaS Backup.

3.1.2 Continuum does not control or limit the geographies from which Continuum SaaS Backup can be accessed by MSP and/or End-Clients and to or from which geographies transfers can be made by MSP and/or End-Clients.

3.1.3 If the Content of MSP or its End-Clients originates from a country outside of the United States and/or contains personally identifiable information concerning individuals who reside outside of the United States and (as described in Section 3.2) will be transferred to and stored in a Cloud located in a country other than its country of origin, MSP has sufficient legal authority granted to it and consents to such transfer and storage of the Content to the United States or other previously specified country and prior to the transfer will obtain written consent of its End-Clients to such transfer and storage.

**3.2 Content Storage.** All Content sent to or retrieved from the Cloud will need to be transferred electronically, unless otherwise approved in writing by Continuum. For End-Clients located in the United States and which process Content that includes personally identifiable information concerning individuals who reside in the United States, Content will be stored on the Cloud located in the United States. For End-Clients located outside of the United States and/or which process Content that includes personally identifiable information concerning individuals who reside outside of the United States, Content will be stored on the Cloud located in either the Australia or Denmark, in accordance with Section 3.1. MSP consents to the storage of Content in, and transfer

of Content into, the country of storage determined by this Section 3.2, and represents and warrants that it has obtained written consent of its End-Clients to same prior to any such transfer or storage. Furthermore, MSP grants Continuum a perpetual, irrevocable, fully-paid up, royalty-free, nonexclusive, transferable right and license to copy, distribute, transfer, store and use MSP's Content, and to sublicense the foregoing rights to any third-party service provider of Continuum, solely to provide the services set forth in this Agreement to MSP. Continuum will not access or use such Content except as necessary to maintain or provide Continuum SaaS Backup, or as necessary to comply with the law or a binding order of a governmental body. Continuum will not (a) disclose such Content to any government or third-party or (b) except as required to provide billing and administrative services, to provide support services requested by MSP and to investigate fraud, abuse or violations of this Agreement or the MSP Agreement, move such Content from the Cloud location determined by this Section 3.2; except in each case as necessary to comply with the law or a binding order of a governmental body. Unless it would violate the law or a binding order of a governmental body, Continuum will give MSP notice of any legal requirements or order referred to in this Section 3.2. Prior to entering into any agreement with an End-Client under which Continuum SaaS Backup will be made available, MSP will include in its agreement with such End-Client, enforceable provisions that require the applicable End-Client to inform MSP in writing if any of the Content includes personally identifiable information concerning individuals who reside outside of the United States and permit the foregoing transfers and storage. MSP will notify Continuum in writing if any of the Content includes personally identifiable information concerning individuals who reside outside of the United States. MSP will indemnify, defend, and hold harmless Continuum for any liability arising from any third-party claims in connection with MSP's or its End-Clients' Content.

**3.3 Data Processor.** If MSP or End-Client transfers any personal data to Continuum, Continuum will be deemed a data processor under the relevant and applicable data protection law. If MSP or End-Client transfers such personal data to Continuum, MSP and/or End-Client shall include all relevant information regarding the personal data, and instructions for the processing of such personal data. Continuum and its subcontractors will only process personal data in accordance with clause 3.2, and the aforementioned additional instructions from MSP and/or End-Client. Continuum shall not be responsible for any non-compliance with applicable data protection law, due to processing personal data in accordance with this clause 3 and/or any additional instructions from MSP and/or End-Client.

**3.4 Data Retention.** Continuum will retain all Content for 30 days after the deletion of the account or termination of this agreement. This "deletion retention" will ensure that MSP and/or End Clients access to Content can be re-established after any conceivable targeted attack against customer primary data and backup data. After expiration of the retention period, Continuum will have deleted all records of Content without undue delay. Any physical media used to store Content is later either overwritten or physically destroyed as part of the internal storage lifecycle management process. Historical records of Content, as provided by Continuum SaaS Backup, are immutable as is necessary for the reliable delivery of the Continuum Offering. It is MSP's responsibility upon

accessing historical records, to maintain an inventory of records that may no longer be accessed due to applicable law or regulation, such as GDPR Article 17.

**Section 4. License Fee.** Continuum may adjust fees and charges for Continuum SaaS Backup by giving MSP at least 30 days' advance notice. MSP's sole remedy in the event it does not agree to such change in fees or in the event it does not agree with the addition of new fees shall be for MSP to terminate its subscription to Continuum SaaS Backup. MSP will be charged for actual usage of Continuum SaaS Backup through the termination date as reported in the Purchase Order Form or MSP Portal, as applicable.

4.1 **Forecasts.** MSP will use reasonably good faith effort to provide Continuum with information (i.e., forecasted volume) for Usage.

**Section 5. Use Reporting.** Continuum reserves the right to gather data on license usage by MSP for each item of Continuum SaaS Backup, including IP addresses, domain counts and other information deemed relevant, to ensure that Continuum SaaS Backup is being used in accordance with the terms of this Agreement. Continuum expressly prohibits domain count overrides without prior written approval. MSP hereby consents to Continuum gathering such usage information and agrees not to block, electronically or otherwise, the transmission of data required for compliance with this Agreement. Any unauthorized use of Continuum SaaS Backup by MSP or other use by MSP in violation of the restrictions contained herein shall be deemed a material breach of this Agreement. Continuum reserves the right to remedy any such breach immediately upon discovery, by charging MSP the then current list price for any usage of Continuum SaaS Backup in excess of the licenses purchased by MSP, or by any other means necessary.

## **Section 6. Obligations of MSP**

### **6.1 MSP Obligations.**

6.1.2 MSP shall comply with Continuum's reasonable requests aimed at ensuring compliance with legal requirements applicable to Continuum SaaS Backup.

6.1.3 MSP is responsible for informing Continuum of any End-Client account, which shall be closed or otherwise make Continuum SaaS Backup inaccessible for such End-Client. Continuum shall not be responsible for any losses MSP may incur, which could have been avoided, if MSP had provided notice to Continuum. MSP's failure to suspend or close End-Clients' accounts, shall not affect Continuum's right to charge MSP the applicable fees, based on MSP's use of Continuum SaaS Backup.

6.1.4. All licenses to Continuum SaaS Backup must be provided for a minimum term of twelve (12) months.

The following Terms and Conditions apply to the use of Continuum SaaS Backup by End-Client and/or to the owner of a SaaS account through which Continuum SaaS Backup is accessed (hereafter collectively, "MSP Customer"). EXCEPT AS EXPRESSLY STATED IN THESE ADDITIONAL TERMS, CONTINUUM SAAS BACKUP IS PROVIDED AND LICENSED "AS IS" AND WITH ALL FAULTS. CONTINUUM DOES NOT WARRANT THAT MSP AND ITS END-CLIENTS IN FACT CAN ACCESS CONTINUUM SAAS BACKUP REMOTELY FROM ANY LOCATION WORLDWIDE, AS CONTINUUM'S THIRD PARTY PROVIDER RESERVES THE RIGHT TO BLOCK ACCESS FROM CERTAIN IP ADDRESSES, COUNTRIES AND BROWSERS WHERE SUCH ACCESS COMPRISES THE SECURITY AND INTEGRITY OF CONTINUUM SAAS BACKUP. EXCEPT AS

STATED IN THESE ADDITIONAL TERMS, THERE ARE NO WARRANTIES, REPRESENTATIONS, OR CONDITIONS, EXPRESS OR IMPLIED, WRITTEN OR ORAL, ARISING BY STATUTE, OPERATION OF LAW, OR OTHERWISE, REGARDING CONTINUUM SAAS BACKUP OR ANY OTHER PRODUCT OR SERVICE PROVIDED UNDER OR IN CONNECTION WITH THESE ADDITIONAL TERMS. UNLESS OTHERWISE STATED IN THESE ADDITIONAL TERMS, AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, CONTINUUM AND ITS AUTHORIZED REPRESENTATIVES DISCLAIM ALL WARRANTIES AND CONDITIONS, WHETHER EXPRESS, IMPLIED, OR STATUTORY, INCLUDING WITHOUT LIMITATION ANY (IF ANY) WARRANTIES OR CONDITIONS OF OR RELATED TO: MERCHANTABILITY, DURABILITY, FITNESS FOR A PARTICULAR PURPOSE, LACK OF VIRUSES, NONINFRINGEMENT, ACCURACY OR COMPLETENESS OF RESPONSES, RESULTS, WORKMANLIKE EFFORT, AND LACK OF NEGLIGENCE.
